Please put "Sock Yarn Wallet" in Subject Line

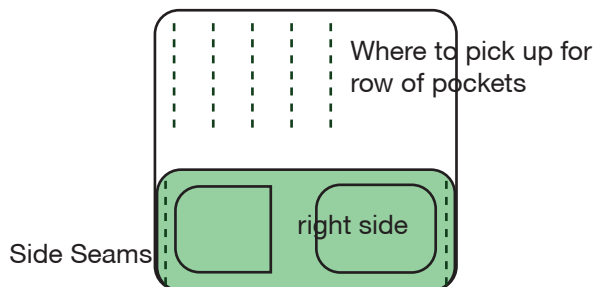

On left side of the wallet base adjacent to the open rectangle just created pick up stitches 2.25" with yarn on the front and tail on the back.

Begin knitting stockinette, when at the end of each row knit one stitch from the wallet base, then when beginning the very next row k2t or p2t. Continue till pocket is 2.5" long and bind off.

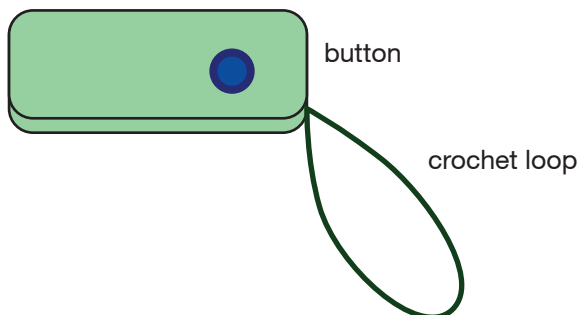

Fold edge as it was in the beginning and sew the two sides together and remove marker.

On top wrong side do a series of identical pockets. Start 3.5" from the right (not including the garter stitch) and repeat another pocket roughly .5 to 1" from base of previous till you have a row of pockets along the top.

### Finishing

Close flap, and sew button to front. On far corner begin a chain with crochet hook. Continue until the length is long enough to loop around wallet and button, close loop and bind off at corner.
